

## **BVH Trustees Meeting Via Zoom, Tuesday 5 January 2021**

- Postponement of Hall's planned January reopening. Not now expected to open until April at the earliest.
- 2 bids have been submitted for work on the Pavilion and Storage. Grants toward this project are presently in hand.
- Treasury and Finance Report. Figures looking good. There has been financial help from District Council/Government plus Furlough of staff ; some of this help has been cascaded down to Tenants who were struggling.
- There has been an application of CIL funding, by the Parish Council, to replace all 8km of paths on the recreation ground.
- Application has been made for CIL funding for improvement to the Valley. The Chair submitted an excellent report. A small number of people have volunteered to help with improvements to the Valley.
- In discussion with the BPC regarding purchase of a large flat screen TV on a trolley for remote meeting support and presentations.
- There has been recruitment of a new trustee but nobody interested in Chair or Treasurer despite widespread distribution of leaflets requesting help throughout the village. IF ANYBODY KNOWS OF ANYONE WHO MIGHT BE INTERESTED IN THE POSITION OF CHAIR OR TREASURER please let us know.
- There was talk of the Village Festival and it was thought prudent to postpone from Saturday 3<sup>rd</sup> July and possibly reserve the first weekend in September. The present organiser was hoping to hand over this year but presently nobody to hand over to.
- Discussions have been taking place with Barry Jobling, who volunteered on the Lucks Lane Archaeological dig and who is also interested in local history, regarding a display, of relics/photos and plans etc of the Lucks Lane Site, in the Village Hall. Oxford Archaeology East (who undertook the archaeological survey of the Lucks Lane Site) would be happy to provide as above with appropriate credits and copyright etc. There has also been some interest from a local Huntingdonshire Charity who may be able to assist the cost of framing boards and displays etc.
