

Climate Change Mitigation Advisory Group Report with proposal for Jan 2021 meeting.

London Luton Airport's NATS Proposal.

Closing date for response is 5th February 2021.

This proposal should be viewed as another attempt to take away the character and tranquility of our village.

Air travel is down by 75%.... This proposal is simply not needed.... air travel has crashed!

Neither IATA (International Air Transport Association) nor EUROCONTROL (The European Organisation for the Safety of Air Navigation) forecasts a return to 2018 passenger numbers until 2024 at the earliest.

The Airspace Modernisation Strategy (AMS) an introduction of a Future Airspace Strategy Implementation in 2024 is recommending that holding stacks should be phased out.

Environmentally

The proposals would increase CO2 emissions per inbound aircraft by almost 300Kg

I propose that the council makes every effort to inform every resident in Buckden, of the impact of low flying jet aircraft, on average one plane every 8 minutes, more in peak times.

1. Agree to print and distribute leaflets (based on the ALAS leaflet) to all households.
2. Take a page in the Roundabout magazine of the same.
3. Insert onto front page of the website the same.

Against Luton Airport Stack? What does this mean to me?

- ➔ Luton Airport is open all day and all night
- ➔ In 2019 the average number of arrivals per day at Luton Airport was between 157 and 218. That averages out at 7 an hour, 1 every 8 minutes. Think that's bad?
 - ➔ Luton Airport want to double this by the late 2030s!
- ➔ Above our rural heads Luton Airport propose a new holding stack!!
- ➔ Planes enter the holding stack at 8000ft offering us 55+ decibels of noise pollution.
 - ➔ This could be equivalent to the sound of a washing machine every 8 minutes over heads!
- ➔ 8000ft is close in height to the Grand Canyon's elevation at the North Rim
- ➔ Potentially 8 planes at 1000ft apart can fly in the holding stack at anyone one time
- ➔ This new holding stack will be above our heads for 24 hours a day, 7 days a week, all year, for the rest of our lives!
- ➔ Happy?
- ➔ Didn't think so!
- ➔ Have your say before *5 February 2021 and Strongly Disagree* by completing the online feedback form found here
- ➔ https://consultations.airspacechange.co.uk/london-luton-airport/ad6_luton_arrivals/consultation/intro/
- ➔ Not online? Talk to your Parish Council Clerk to see how you might otherwise object
