

Neighbourhood Plan Update November 2020

The final report from the Examiner has been received. He requested 26 modifications. We have no objections to these and in many cases, they are helpful to our position. The modifications have been made and the final updated NP will be sent to HDC in w/c 9/11.

The NP will go to the HDC Cabinet for approval on 9th December. At this point it has 'weight' in the planning process although the referendum cannot take place until May 2021.

We are still, in parallel attempting to resolve a difference of opinion with HDC about the boundary of the Ouse Valley. The HDC Local Plan refers to a Green Infrastructure Area which shows the boundary in a different position, closer to the built area of Buckden, than a the previous landscape appraisal.
