

Green Infrastructure Group December 2021

Meetings

The meeting next meeting is planned for the 17th January 2022.

Trees

The tree work identified by the tree survey has been commissioned but no work has yet been carried out.

Footpaths

Cllr Richard Salmon is in the process of putting up footpath signs where they are required. This follows the issues identified in the footpath survey.

The advert asking for volunteers to help with footpaths did not get placed in the Roundabout as requested. It will go in the January edition.

Biodiversity Strategy

This has now been shared. Melanie Story footpath and tree warden, Cllr Underwood and Cllr Howell-Jones will meet with Mark Ward on 15th December to review document and make any final editorial amendments. This will then guide our work on the village.
