

Report Climate Change Mitigation Advisory Group - December

The Christmas Lights switch on event and the BPC / Climate Change Mitigation stall and display worked well.

Many thanks to Catherine, Peter, Madeline, Caroline and Ramune, for brilliant efforts to put together the BPC stall, it came together pretty well.

The atmosphere was amazing, and I think we can say that the stall, was a success in that we took the names off 2 prospective new councillors, took bookings for the thermal imaging camera, enrolled a prospective flood coordinator and last, but not least, drew the attention of a Huntingdon District Councillor Lara Davenport-Ray, who was very impressed with not only the stall but, our thermal imaging camera for ease of use and price and the fact we had one at all, along with the work of the council to, increase awareness of renewable energy vehicles and to generally communicate climate change concerns. She added she would be offering Buckden Parish Council's example as a recommendation to other parish councils.

Regards Allan Jones.

Buckden Parish Coucillor - Large Scale Planning Committee. Climate Change Mitigation Advisory Group.
