To all Councillors,

At the last Parish Council meeting I was asked to provide some background information on the VHT. Unfortunately I had no time to give a full picture and I believe that most Councillors would welcome a more thorough 'history'

In 2019 I was tasked by the full Council to write a full report on the development of the relationship between the Council and the VHT. This was distributed to all councillors and to members of the VHT committee.

I attach a very slightly amended copy of the original report.

I hope that you find this useful.
