

Green Infrastructure Group March 2022

Introduction

The next meeting will be held on Monday 7th March. This is an interim report.

Great Ouse Valley Trust

We have been invited to subscribe to this organisation again this year. I have asked the Clerk to action this. It is important that Buckden works with the Trust over issues impacting on the Ouse Valley.

Biodiversity Strategy and Action Plan

This has now been delivered and we are currently taking the actions to form an action plan for the Council and to provide guidance for the Handymen. This guidance will be part of the appraisal process

Trees and Bees

This will be the next leaflet produced. It will include a guide to the Talking Trees route.

Friends of Buckden Footpaths

We now have a good number of volunteers for this and hopefully this will help to keep the paths walkable.
