

Buckden Parish Council Chair's Report May 2021

1) Flooding

Please find attached two reports on Flooding. I have drawn information together on both the 2020 flooding and the Lucks Lane attenuation basin issues. This has been done for two reasons:

- a) to capture the course events and subsequent actions for those who have deal with these issues in the future
- b) to provide accurate information for current residents
- c) To provide the basis of a presentation at the Annual assembly

I would welcome Councillors views on how these reports can best be utilised.

2) Annual report and Assembly

Please find attached

- a) Annual Report that will form a central insert into the next Roundabout
- b) Agenda for the assembly
- c) Presentation for the assembly

3) Freedom of Buckden

Thank you to all of you who approved the awarding of this to Stan. Martin and I made the presentation on Sunday. Details of the approval of this award and finalising the details of the scheme going forward are detailed in the Compliance Advisory Group Report.
