

Report from Green Infrastructure and Biodiversity Group May 2021

Trees

We have commissioned the Tree Survey.

Greening of Buckden

At the last Parish Council meeting we discussed bulb planting. We have identified that in our bid for improvements to Hunts End that money for bulbs was awarded so that will be a contribution. Amy has suggested that we put something in the roundabout in September and say to people if they want to buy some extra bulbs when they buy theirs, that they can go ahead and plant them. That would not cost us anything and would give people some local ownership. We would define which verges to focus on. Either that or we could ask them to donate to us and we get handymen to plant.

Improvement to Hunts End

We are in the process of commissioning the work on Hunts End, wildflower planting, tidying up bus shelter creating path across the green and installing bird and bug boxes and of course installing the bench which links with Terry's retirement.

Great Ouse Valley Trust

I attended the AGM (virtually) and I have circulated the report.
